

## KinderTrack4-NY Release Notes

Version: 4.2.14

| SPR #                 | State | Problem  | Solution  |
|-----------------------|-------|--|---|
| <b>Standard Fixes</b> |       |  |   |
| 63517                 | NY    | On the Family Summary page, there is a field for Family Size. This field currently uses the family size from the most recent approved notice. If a district is not using the setting for Notice Fees, the size displayed in this field may not match what the system is using for family size when calculating payments. | The Family Size on the summary page now checks to see if the district is using Notice Fees. If not, the Family Size is calculated as of the effective date set on the summary page.   |
| 63531                 | NY    |  | Added a business rule to the Parent Needs page to ensure a valid State Code is entered.   |
| 63566                 | NY    | If a child is born on a leap day (2/29), and they turn 13 in a year that is not a leap year, the system treats them as 13 years old on 2/28. The effectively shortens their authorization by one day.  | Modified the system so that in situations where a child born on a leap day turns 13 in a non-leap year, the system will allow an authorization through 2/28.  |
| 63579                 | NY    |  | Modified the CSOS import so that the WMS data for the Homeless Indicator, Military Status and Disability Indicator are imported into CCTA.<br><br>Modified CCTA by removing the Language field from the Parent screen. The Language field is now on the Family screen. In addition, the Language Spoken from WMS is imported into CCTA and displayed in this new field. |
| 63714                 | NY    |  | Modified the system so that if the Homeless box is checked on the family page, the family share for the case will be \$0.00. NOTE: You must create and authorize a client notice for the \$0.00 fee to take effect.   |
