

## KinderConnect Release Notes

Version: 2.0.20

SPR #	State	Problem	Solution
<b>Standard Fixes</b>			
56580	NY		<p>Modified the dropdown that displays Absence types on the Enter Attendance screen. Only those absence codes that a district has mapped in KinderTrack (Admin &gt; Attendance Codes) to a KinderConnect Code will be displayed.</p> <p>Providers may notice that some of the items in the Absence dropdown have changed. This will only affect new attendance. Any days saved with an absence code that has since been removed will retain that absence code.</p> <p>Providers that no longer have the Not Scheduled option should leave attendance for the day blank, and not select any absence code from the dropdown.</p>
56582	NY		<p>Added the status of Rejected to the payment screen in Web Submittal. Providers will now be able to see which payments were set to a status of Rejected by the district. In addition, providers will also be able to view a note attached to a rejected payment that is entered by the district explaining why the payment was rejected.</p>
