Version: 2.1.0

SPR #	State	Problem	Solution
Parameters			
Product = KinderConnect			
Standard Fixes			
64479	NY	Periodically, a child is checked in and then checked out within that same minute. This would show as invalid due to current logic.	Logic was changed to allow In and Out times that happen within the same minute as valid
64481	NY		The menu item Attendance - Entry has been renamed to Detail
64485	NY	The user interface is not mobile friendly.	Updated the user interface to work better on mobile devices, use a more modern look and feel, remove redundant UI elements, and unify the UI across all the pages.
65500	NY	There were many spanish translations that needed to be fixed.	Various translations from English to Spanish have been added.
65545	NY		Credential information has been moved to separate Account pages for Operator, Sponsor and Child. New page permissions have been added for Operator Account and Child Account, view and edit. Account links have been added to Search pages for Operator and Child. These account links will be hidden if the operator does not have relevant permissions.
65559	NY		Search pages should now execute the search when the users presses the enter key.
65613	NY		The Operator, Child and Sponsor page now support image upload and deletion.
