

KinderTrack Version 4.2.19 - Release Notes

JIRA	Summary	Problem	Solution
KT4NY-536	Implement Effective Dates for Attendance Codes and remove Effective Dates from Attendance Groups	Districts need the ability to limit the number of absences/closures for a specific period of time to handle waivers, and then be able to go back to the previous limits. In order to accomplish this, we removed effective dates from Attendance Groups and placed them on the Attendance Codes. This will allow the users to create new groups and have it Active for a specific period of time.	Modified Family>Child, Administration>Attendance Codes and Attendance Groups, Provider>Modified Days, Provider>profile to support Attendance Codes with Effective Dates. In addition, created individual Attendance Group records for each effective date that existed. A number was added to the group name, for example Routine per Month, Routine per Month1, Routine per Month2.
KT4NY-540 TS-176491	Family>Eligibility: Wrong Word "Pening" displayed in Eligibility History		Modified to return "Pending" status on the Family Eligibility record instead of the word "pening".
KT4NY-545	Payment>Payment: Add WPI For Operating Hours vs Attendance when saving a payment		Added WPI 2166. When saving a payment, the system will compare attendance hours against the Hours of Operation listed on the Provider > Profile page.
KT4NY-549 TS-180949	Page print feature in KinderTrack updated	The print feature in KinderTrack (printer icon in the bottom bar) only shows the first page in the preview window and only prints the	Updated the way the print feature works for different browsers. The system will now print the contents of the entire page requested.

		first page of the screen. Print should allow printing of the entire page the user is looking at.	
KT4NY-551 TS-180317	Client Notice shows incorrect NH Rates when the total of all differentials exceeds 25%	The system was enforcing the maximum of 25% for the Homeless, Non-Traditional and Accredited increases before calculating the Normal Hours rate. Since the Non-Traditional increase does not apply to the Normal Hours rate, it should only have limited the Homeless and Accredited differentials for this rate to 25%	Updated to only max Homeless and Accredited to 25% before calculating the Normal Hours rate, but to still max Homeless, Accredited and Non-Traditional before calculating the After Hours rate.
